

Sunday & Associates, Inc.

**BALANCING THE HUMAN ENDEAVOR WITHIN
THE NATURAL ORDER OF LIFE**

SUNDAY & ASSOCIATES, INC.

Using the business approach of **ECO-CENTERED PLANNING**, **Sunday & Associates, Inc.** is a specialty service Environmental/Ecological Advisory firm founded in 1990. *Eco-Centered Planning Keeps the essential economic and ecological aspects in perspective, while still keeping the focus on the goal in mind.* We provide a “time-proven and comprehensive” understanding of complex environmental/ecological issues relevant to today. Our service goes beyond just detail of implementation of environmental regulations, it also provides an insightful understanding of how business and government systems operate and interact with each other. We work with clients to help and guide them to a sensible and economical resolution that is in balance with environmental goals. We help to do it right the first time.

We offer a proven view of how to successfully make eco-sustainability work for business and the global network, without jeopardizing our environment. We help you weigh the plausible options and make the correct decisions.
